About This Game

Climbers in CLIMB! will fight against dynamic environments and an array of outrageous weapons and gadgets in a mad scramble to the finish! Scale cliffs in various hazardous environments around the globe. Get to the top and brag to your friends, or fall to your death in a shower of ludicrous gibs. Are you good enough to scale the world's deadliest mountains?

CLIMB! is a physics based 2D mountain climbing simulator where it is you vs the mountain and everyone! CLIMB! comes with a exotic control scheme, but don't worry, the first few levels will introduce to you to how to play but the difficulty ramps up very quickly. If you get bored playing by yourself, invite a friend over to see who is really the king of the mountain by either racing against them or by chopping them up like Swiss cheese.

Main Features

- Single Player Campaign where you race against the clock to get to top!
- Unlockable mountains, a variety of challenges will test your reflexes.
- 2-Player race against your friends on a nice comfy couch.
- 4-Player Sumo arena to find who is really - king of the mountain.
- A good time.
